## METROPOLITAN SCENE: WORLD PERSPECTIVE

### A Fall Series of Lectures

*After 18 months of intensive effort in 40 major metropolitan areas around the world, the Seminar-Conference phase of the Centennial Study and Training Programme on Metropolitan Problems took place at York University between August 6th and 16th of this year. Over 200 of the world's foremost urban experts — elected and appointed officials, businessmen, researchers, architects, planners, and academics — discussed 11 specially-commissioned study papers and explored avenues of comprehensive urban planning. This 10-lecture series, presented by persons who were intimately involved in the programme, is the first exposition of what transpired during this unique and much-heralded undertaking which was sponsored by the Bureau of Municipal Research with the co-operation of the United Nations Public Administration Branch.*

OCTOBER-DECEMBER, 1967

BUREAU OF  
MUNICIPAL  
RESEARCH

## THE COURSE

The Course will consist of ten lectures beginning Wednesday, October 4th. Lectures will be held at the New Physics Building (Russell and Huron Streets) at 8 p.m.

Sessions will commence with the presentation of a paper, of approximately one hour in length, by each lecturer. Following the lecture, there will be a period in which participants will be encouraged to discuss the evening's subject with the speaker.

By presenting this Course, it is hoped that the facts, knowledge, and insights resulting from the Centennial Study and Training Programme can be shared more fully with concerned citizens of the Metropolitan Toronto community.

## DISCUSSION SUBJECTS

*Order of lectures subject to change*

**Mr. J. O. E. Pearson** — October 4  
Ontario Department of Municipal Affairs  
and Member, Toronto Study Group

*Planning and Urban Design*—Examines the approach to development and planning in relation to technological change and attitudes to this change, and considers a revised approach based on a new scale of development.

**Professor J. S. Dupré** — October 11  
Department of Political Economy and Director,  
Centre for Urban and Community Studies,  
University of Toronto, and Author of  
Intergovernmental Relations Study Paper

*Intergovernmental Relations*—The values of local government are examined together with the unique effect of metropolitan systems on relationships among levels of government and the ways in which these relationships impinge upon such values.

**Alderman Charles L. Caccia** — October 18  
Ward 3, City of Toronto, Chairman of Housing,  
Fire and Legislation Committee,  
and Member, Toronto Study Group

*Governmental Administration and the Political Process*—Analyses the political process in terms of participation by citizens, political parties, and interest groups along input-output lines.

**Professor Michael Goldrick** — October 25  
Department of Political Science, York University,  
and Chief Rapporteur, Centennial Study  
and Training Programme

*Metropolitan Area Transportation* — Considers the planning, administration, and financing of metropolitan transportation systems with special emphasis upon road transportation and comprehensive cost comparison techniques.

**Mr. John McCulloch** — November 1

Manager, Toronto Branch Office of  
Central Mortgage and Housing Corporation,  
and Member, Toronto Study Group

*Housing in Metropolitan Areas*—Compares the standards, densities, and costs of housing in countries in different stages of development and examines the implications of urbanization on already acute housing problems.

**Her Worship Mayor True Davidson** — Nov. 8

Mayor of Borough of East York, Member of  
Metropolitan Toronto Executive Committee,  
and Member, Toronto Study Group

*Health and Welfare*—Raises problems resulting from the negative effects of artificial urban environments on man, particularly emotional and physiological manifestations, and considers administration on a metropolitan basis of welfare service programmes.

**Wm. L. Archer, Q.C.** — November 15

Attorney, Hughes & Archer,  
Former Controller, City of Toronto,  
and Member, Toronto Study Group

*Education in the Metropolis* — Examines the role of educational systems in the metropolis and the impact of these systems on the planning of the area.

**F. Warren Hurst, F.C.A.** — November 22

President, Bureau of Municipal Research,  
and Vice-President and Treasurer,  
Consumers' Gas Company

*Utilities*—Consideration of the geographic extension, efficiency, democratic values, public vs. private ownership, the appropriate roles of elected and appointed officials in the administration of utilities, and the issues related to profits and their disposition.

**Professor Meyer Brownstone** — November 29

Executive Director of Centennial Study and  
Training Programme, and Department of  
Political Economy, University of Toronto

*Financing Metropolitan Government*—Objectives and basic principles involved in metropolitan finance are discussed, along with fiscal and budgetary systems.

**Mr. Simon Miles** — December 6

Associate Director of Centennial Study and  
Training Programme, and Assistant Director,  
Bureau of Municipal Research

*The Functional Metropolis and Systems of Government*—Examines the role of the metropolis in national development, the interaction between metropolis and region, and varying political systems and development strategies as they affect and are affected by metropolitan realities.
